
Four Graduates on a Three-Week Internship at Saba Rock Resort

Release Date: 24 July, 2025

Four recent graduates from the Bregado Flax Educational Centre are engaged in a three-week internship with the Saba Rock Resort.

This marks the second collaboration between the Department of Labour and Workforce Development and the resort, aimed at advancing youth development by providing meaningful exposure to real-world work environments.

The interns will gain hands-on experience in the hospitality industry and develop critical soft skills. The partnership is already bearing fruits with a former intern securing a head hostess job at a top resort in the Virgin Islands.
