

Residents Urged to Report Public Water Connection Issues

Release Date: 21 August, 2025

Residents who are currently experiencing connection issues with their public water supply from the Water & Sewerage Department are asked to contact the Ministry of Communications and Works at 468-2163, 468-2183 or 468-2117 to register their concerns.

This information will assist the ministry and the department to track and resolve issues more effectively.

Your cooperation is vital in helping to identify areas of concern and ensure reliable water access for all.
